DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-5, drawn to nucleic acids.

Group II, claim(s) 6-14, drawn to method of nucleic acid hybridization.

Group I, claim(s) 15-16, drawn to kit containing nucleic acids, nucleotide triphosphates, a polymerisation agent, and instructions for use.

2. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: International search report reveals that claims 1-5 are anticipated by a previous art of Barany et al. (PCT International Publication Number WO 97/31256 A) (August 28, 1997). Therefore, claims 6-16 lack the same or corresponding special technical features.

3. A telephone call was made to Janis Fraser on October 27, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made

Art Unit: 1634

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Arun Chakrabarti, Ph.D. whose telephone number is (703) 306-5818.
